

Embedding Strategies in Child's Day

Embedding CVI Objectives into Daily Routine

Objective (Ten CVI Characteristics)	Switch talk	Calendar	Mobile Prone/Ipad	Free Play	Adaptive Swing	Sensory Room	Get ready for home
1. Color (red)	Use red switch on black background			Position fully supported		Single red or silver objects	Cubbie lined with red tape
2. Movement				Add movement to activity to engage		Add movement to activity to engage	
3. Visual latency (8-10 second wait time)	Wait time!					Wait time!	
4. Visual fields (left peripheral field preference)	Place switch for left peripheral viewing						
5. Complexity (block out all other visual distractions, noise/music, smells)	Block out visual clutter		No sound on apps Choose app with simple graphics	No sound		One object presented in front of black background	
6. Light gaze			Face away from lights/windows	Turn overhead lights off			Turn tap light on in cubbie
7. Distance viewing							
8. Visual reflex							
9. Visual novelty			Use familiar apps	Use familiar materials			
10. Visually guided reach	Hand under hand to activate red switch		Hand under hand to tap ipad			Hand under hand to cause movement silver pom-pom
